

TexJet ROLL printer

3 in 1 versatile solution
for digital printing on

- textile
- sublimation paper
- ribbons

Using
1 printer
only!

polyprint s.a.
digital textile printing solutions

TexJetROLL printer

Textile

TEXJET Roll includes all features for high quality printing on textile such as tension bars for loading of the textile, drain for penetrated ink, and take up unit. Ideal solution for custom printed small format banners, flags, foulards, etc.

Using 1 printer only!

Sublimation paper

TEXJET Roll prints accurately on sublimation paper due to the vacuum system included, enabling the production of numerous products suitable for sublimation transfer printing such as banners, mugs, mouse pads, coasters etc.

Ribbons

TEXJET Roll can easily be transformed to a ribbon printer by using the guiding bars provided, which allow full color printing on several rolls of ribbons at the same time.

TEXJET Roll is available in 2 versions:

•TEXJET Roll 8C

8 colour configuration for accurate colour reproduction or CMYK pigment + CMYK sublimation configuration for versatility

•TEXJET Roll 4C

CMYK only, 50% faster printing speed than the 8C

Technical specifications

	TEXJET Roll 8C	TEXJET Roll 4C
Print technology	InkJet Piezo	
Print resolution	2880x1440 dpi max	1440x720 dpi max
Print head	180 nozzles X 8 colours	360 nozzles X 4 colours
Print speed	Up to 12.7 m2/h	Up to 18.7 m2/h
Maximum print width	42cm	
Head height	3mm	
Roll dimensions	Core diameter 2" or 3" Max outside diameter 150mm	
Dimensions	85x90x100 cm (WxLxH)	
Weight	60 kgs	
Ink type	Waterbased Textile Pigment / Sublimation	
Ink feeding	Refillable cartridges	
Power	AC 110-230V 60W	
Operating system	Windows XP, Vista	
Connectivity	USB 2.0, Ethernet 10/100
