

REMOVER

Product Information Bulletin

Recommended Parameters

## REMOVER

It is used for the quick and safe decoating of screens and suitable for all copying materials based on polyvinyl alcohol (not for indirect films) and can be produced as required by dissolving an adequate quantity of powder in water.

### Highlights

- REMOVER is used for the quick and safe decoating of screens. It is suitable for all copying materials based on polyvinyl alcohol (not for indirect films) and can be produced as required by dissolving an adequate quantity of powder in water.
- REMOVER solutions are odourless, free from chlorine, do not damage the mesh and are non-corrosive.

### Shipping & Storage

41°F - 86°F (5°C - 30°C)

inknovators

### Precautions

- REMOVER is used as a 1 - 2 % aqueous solution, i.e. 100 g are dissolved in 5 - 10 lt. of water. The higher concentration is particularly required when using water resistant photo emulsions.
- Before usage, please stir the product well. Do not use any additives that are not advised. In case of emergency, Safety Data Sheet of this product should be ready for help at the working area.

- The warnings available on safety data sheets have been written for the purpose of providing comprehensive information on the products & in case of any nonconforming usage can not be held responsible for any direct and/or indirect loss or damage of the manufacturer/distributor.
