3 Use handle to adjust form inside hat until snug

4 Tightly fasten hat around form

5 Ensure pressing surface is flat and firm

6 Follow instructions in Cricut Heat™ app

Technical specifications

Cricut Hat Press Models: CHP080B1, CHP082G1 CHP082F1, CHP082I1

Please read this entire document prior to setting up, operating, and servicing your Cricut Hat Press machine. Please follow the enclosed instructions, online instructions, and other official Cricut instructional materials.

In these instructions, the term "Machine" means Cricut Hat Press.

Description:

The Cricut Hat Press is a handheld heat press built in the vein of the popular Cricut EasyPress™ products with a form factor dedicated to heat transfers on hats, namely caps. Controlling the Cricut Hat Press is simple using either the built-in controls or Bluetooth® technology. Three simple heat settings take on every possible heat transfer project, including permanent Infusible Ink™ transfers that become one with the base material. With an extra layer of protection on its ceramic-coated heat plate, Cricut Hat Press effortlessly glides over oddly shaped surfaces to transfer your design. Safety features include an insulated safety base and an auto-shutoff feature. It's lightweight, portable, easy to store, and compatible with major brands of iron-on/HTV, Infusible Ink & sublimation products.

Product specifications	
Size – Unit (Width x Length x Height)	3.5 in x 5.55 in x 4.56 in; 8.9 cm x 14.1 cm x 11.6 cm
Weight – Unit	1.6 lbs (0.7 kg)
Size – Unit+ Stand (Width x Length x Height)	4.64 in x 6.85 in x 5.43 in; 11.8 cm x 17.4 cm x 13.8 cm
Weight – Unit + Stand	2.61 lbs (1.15 kg)
Power input (appliance inlet)	120-127V 60Hz 410-470W ; 220-240V 50/60Hz 380-420W
External power supply	N/A
Operating mode	Continuous
Electrical classification	Class I (Supplied by AC Mains)
Pollution degree	PD 2
Ingress Protection	IPX0 (Ordinary)
Wireless specifications	
Transmission type	Bluetooth
Frequency Band	2402.0-2480.0 MHz
Maximum Radiated Power	<= 100 mW (e.i.r.p)
